Bio

I'm an Information Systems Engineer and Mobile Application Developer. Experienced with all stages of the development cycle for mobile projects. My key principles are high Quality, respect of Deadlines, Clean Code, a keen eye for detail and high performances. I'm strong in proposals and suggestions to improve the product. Active, dynamic, respectful, and easy to work alone or in a team. I'm looking for new challenges and a place where I can put all my talents and efforts to produce awesome products.
